

MSK MRI

Anatomy

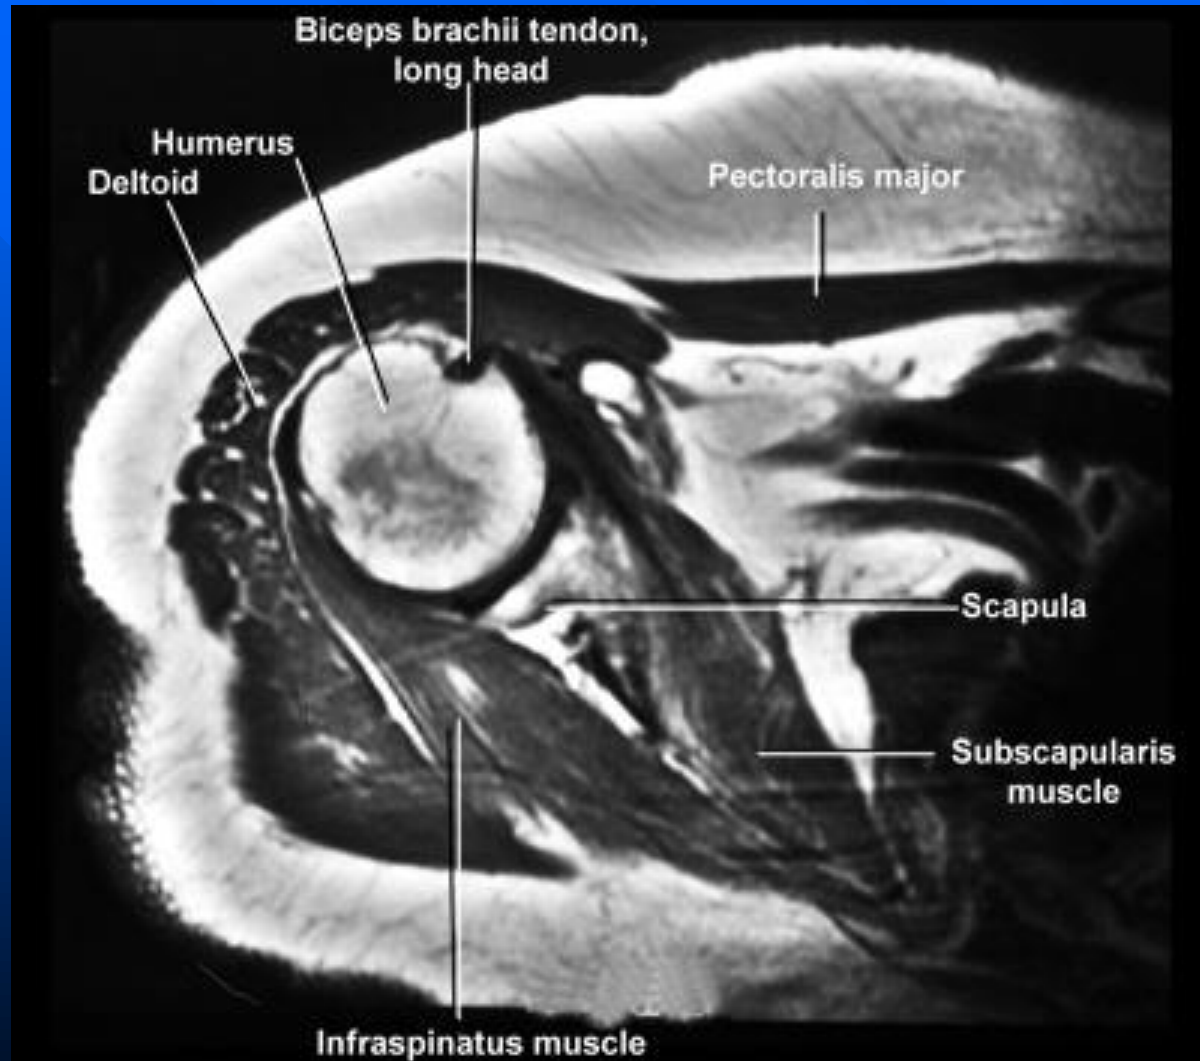

Anatomy

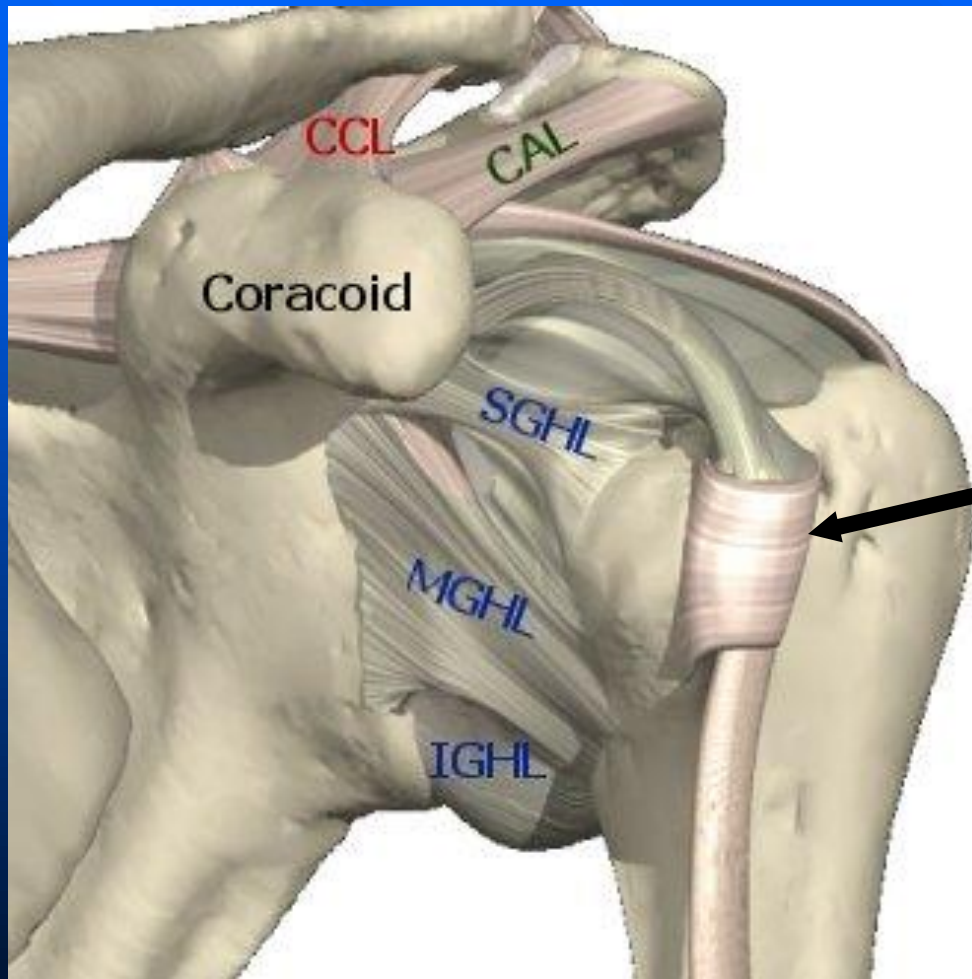

- 1 humeral head 2 glenoid 3 acromion
4 supraspinatus muscle 5 supraspinatus tendon
6 deltoid muscle 7 subscapularis muscle
8 biceps tendon 9 greater tuberosity
10 lesser tuberosity 11 superior labrum
12 inferior labrum 13 subcutaneous fat

Anatomy

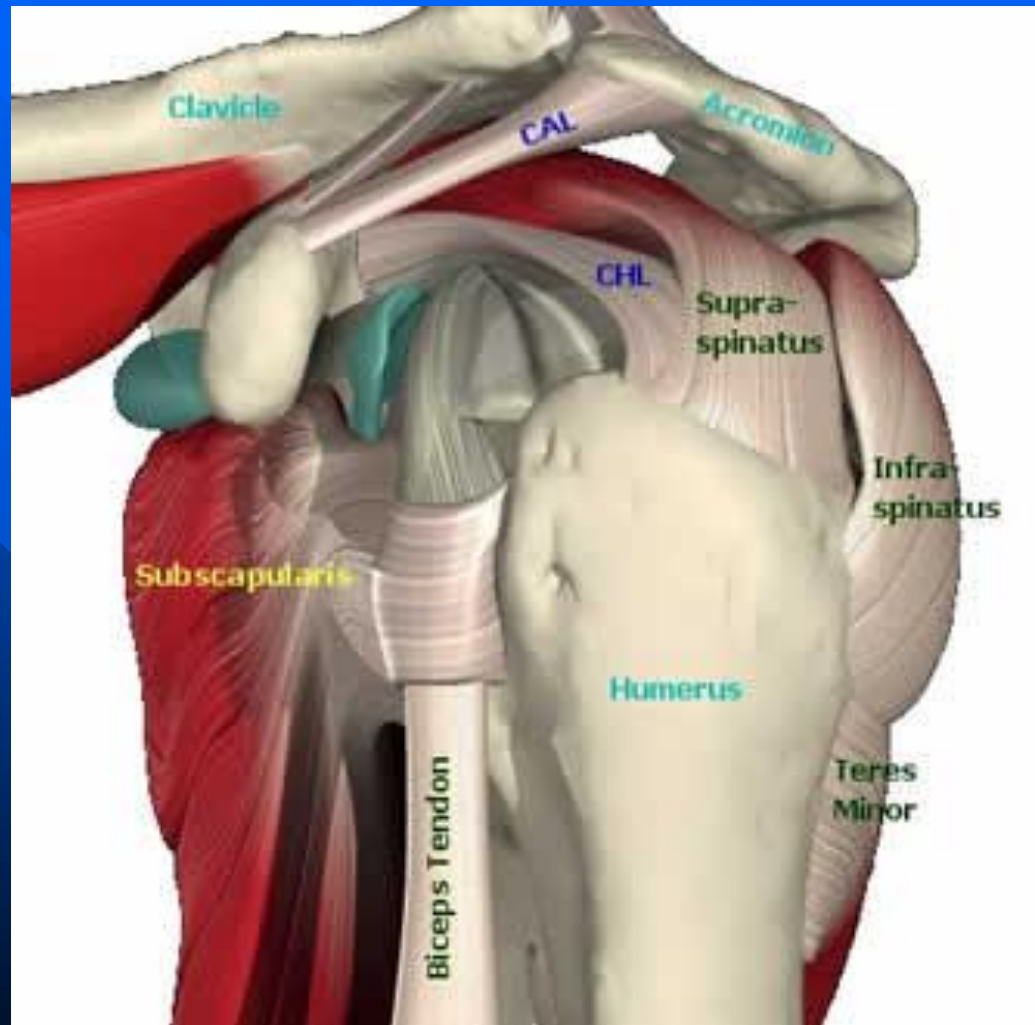

Anatomy

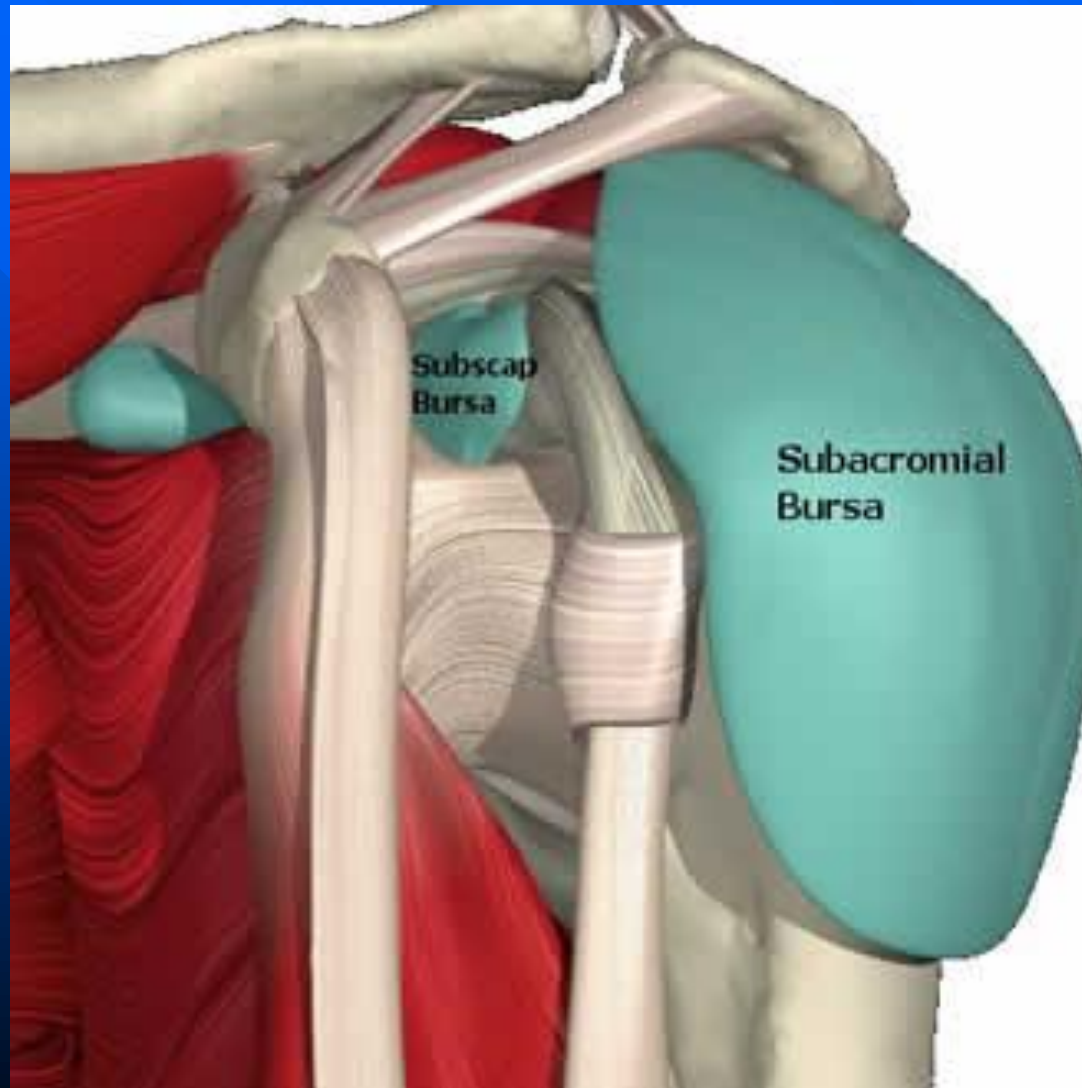

Transverse Humeral Ligament

Anatomy

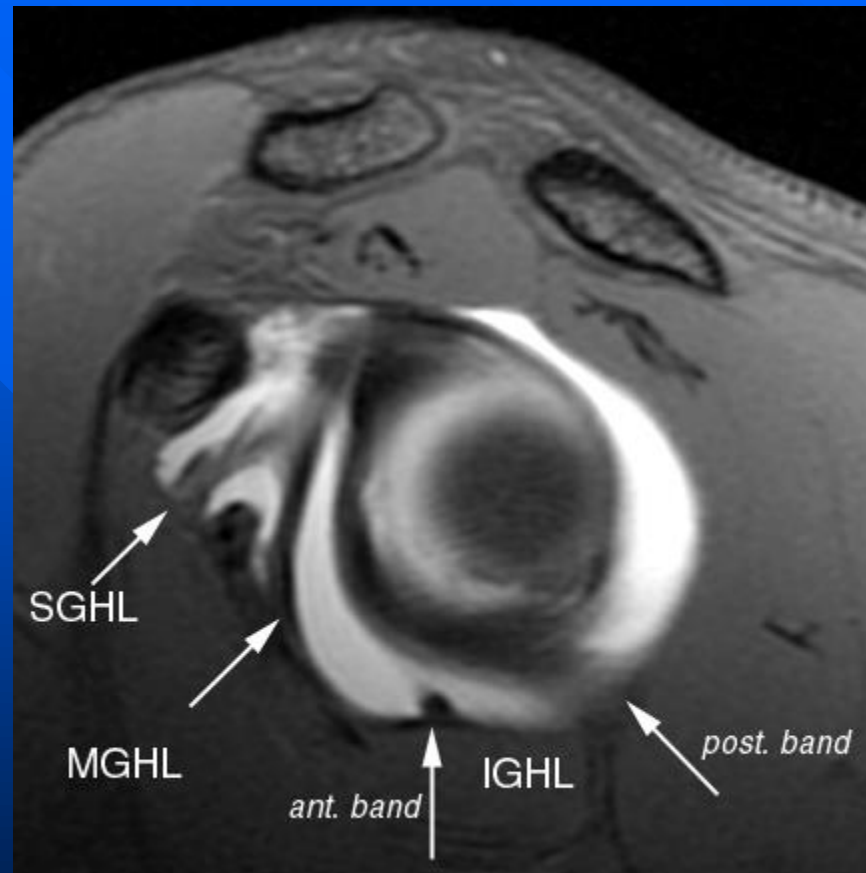

Infraspinatus runs at an angle up to the greater tuberosity
Supra is horizontal

Anatomy

Anatomy

SGHL=superior glenohumeral ligament

MGHL=middle glenohumeral ligament

IGHL=inferior glenohumeral ligament (anterior and posterior bands)

Anatomy
