Anatomy

Slice 8/18

Squama of temporal bone

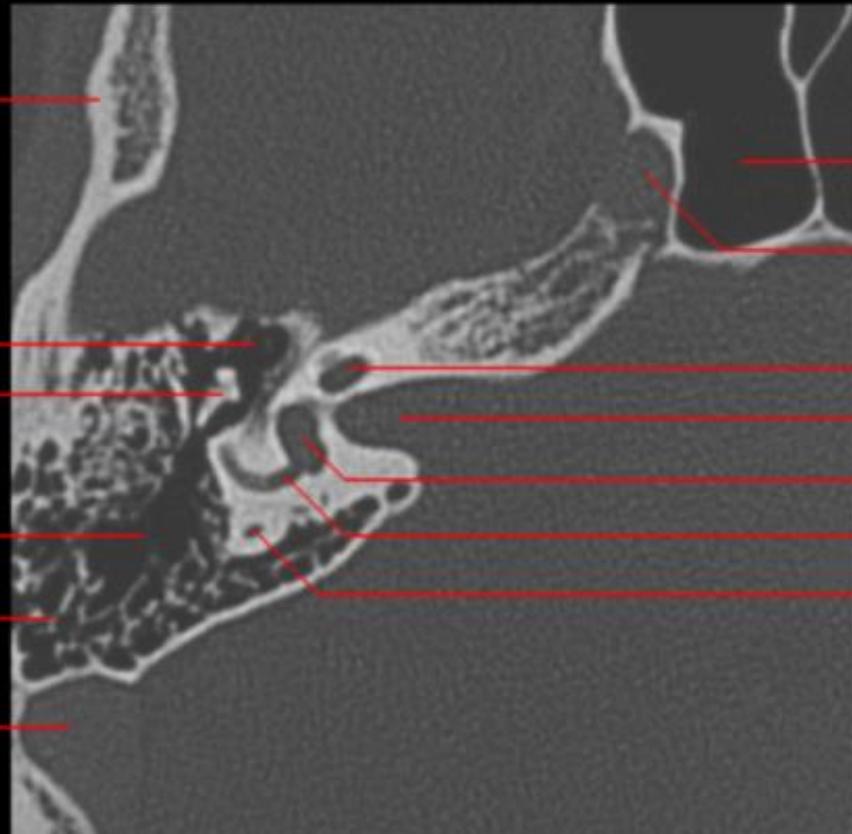

Tympanic cavity

Malleus

Mastoid antrum

Mastoid air cells

Groove for sigmoid sinus

Sphenoidal sinus

Internal carotid a. (canal)

Cochlea

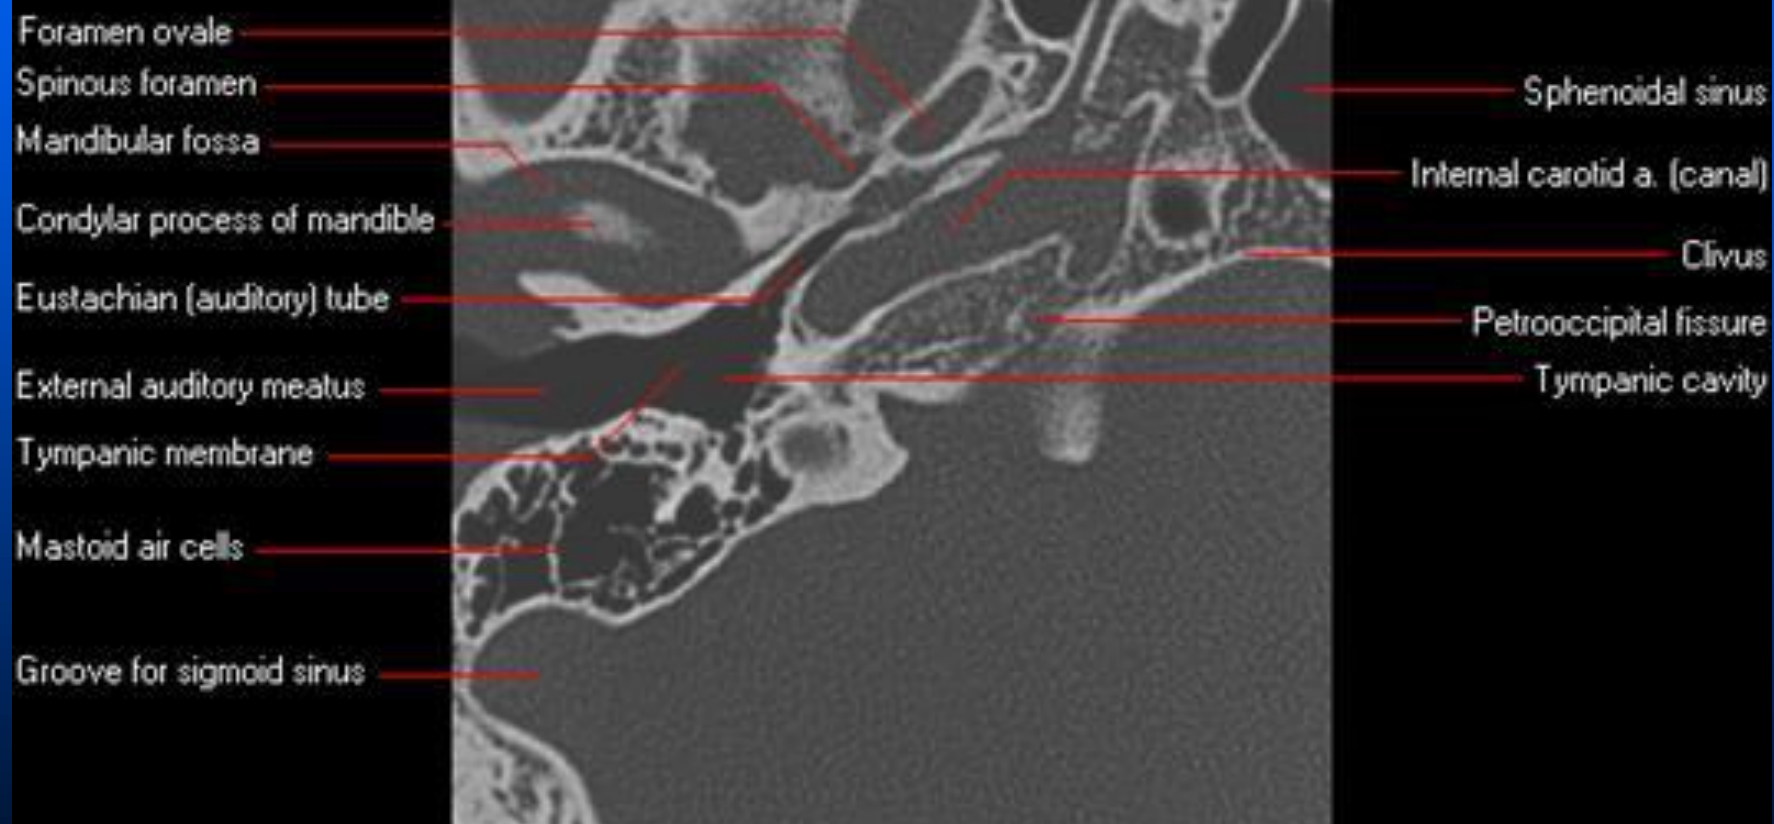

Internal auditory meatus

Vestibule

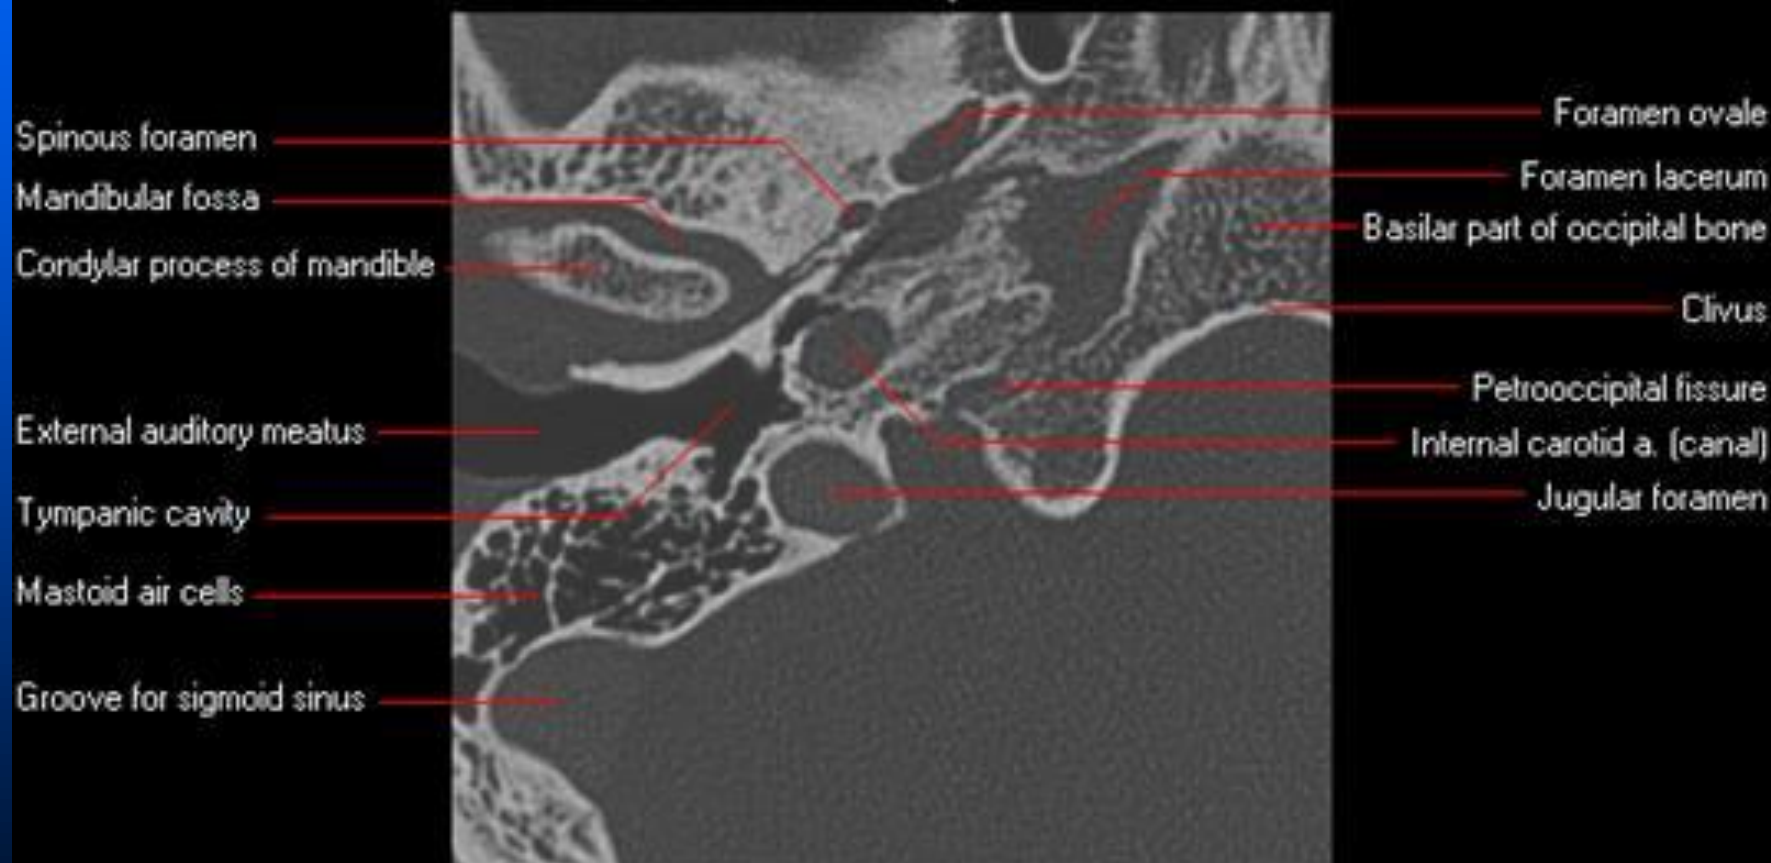

Lateral semicircular canal

Posterior semicircular canal

Slice 15/18

Slice 17/18

Articular tubercle

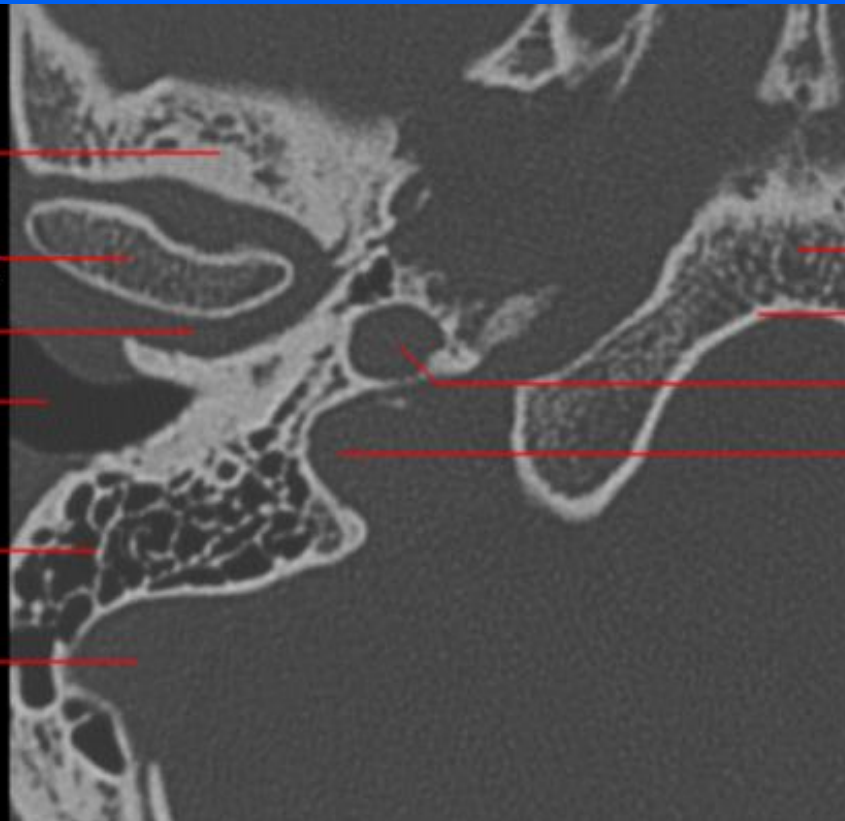

Condylar process of mandible

Mandibular fossa

External auditory meatus

Mastoid air cells

Groove for sigmoid sinus

Basilar part of occipital bone

Clivus

Internal carotid a. (canal)

Jugular foramen

Slice 11/25

Prepontine cistern

Cochlea

Facial (VII) n.

Vestibule

Petrous pyramid

Vestibulo-cochlear
(VIII) n.

Cerebellar hemisphere

Basilar a.

Dural sheath into the
internal auditory meatus

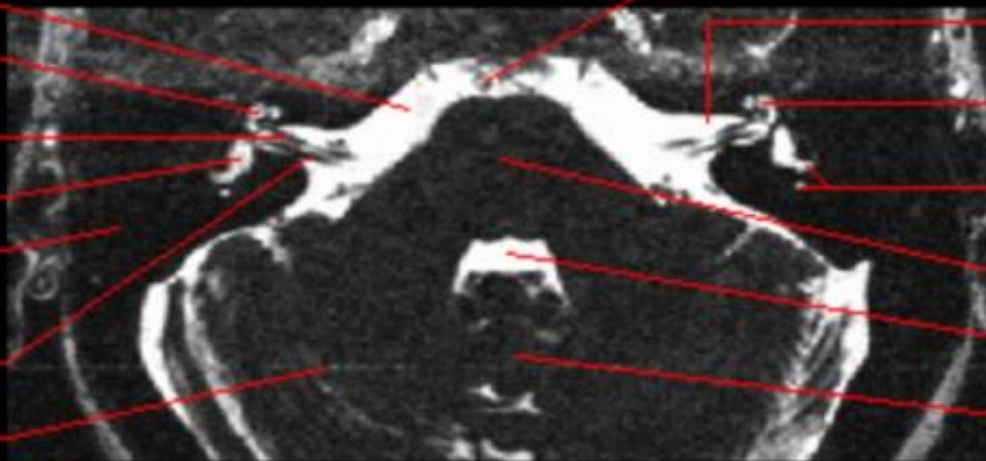

Cochlea

Posterior semicircular
canal

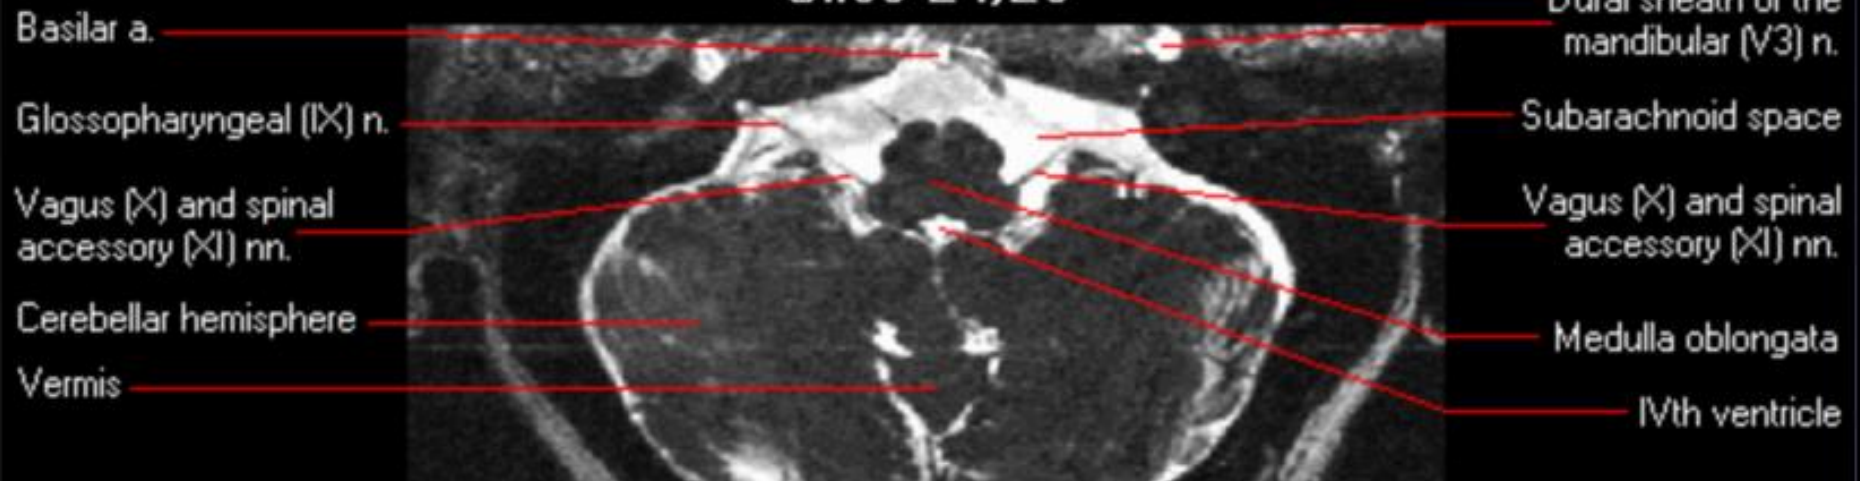

Pons

IVth ventricle

Vermis

Slice 24/25

Squama of temporal bone

Antral cells

Malleus and incus

External auditory meatus

Tympanic membrane

Tympanic cavity

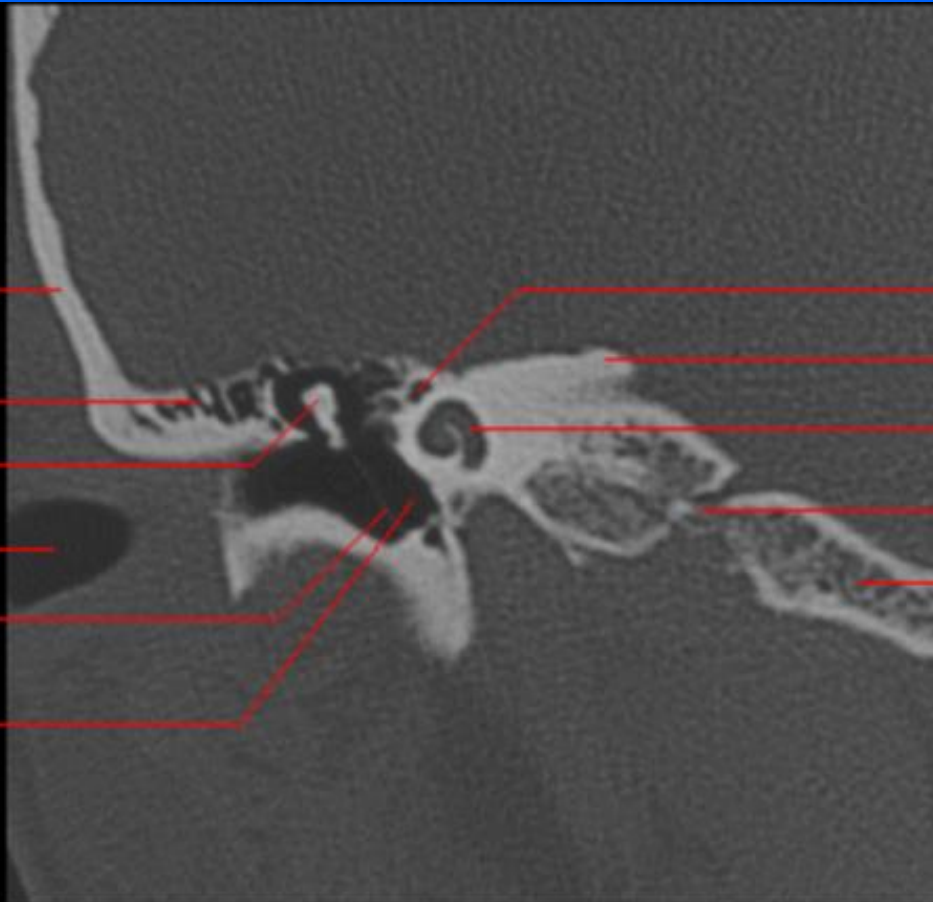

Facial n. canal

Eminentia arcuata

Cochlea

Temporooccipital fissure

Occipital bone

Anterior
